We welcome all kinship families.

You may be just starting out as a kinship carer – trying to find your way through legal, financial, and other challenges.

Or you may have been looking after the child of a relative or close friend for some time now and could use some support.

Every kinship family situation is different, but we want you to know that there are others out there, like you. At Kinship Care, we work **with** and **for** kinship families.

We can offer you information and signpost you to further advice and support. Or just provide you with a listening ear. Please contact us, to tell us about your kinship journey. We really want to hear your story.

Kinship Care promotes the recognition, rights and entitlements of carers, children, and young people in kinship families.

We work with local and community services to provide information, support and opportunities for kinship carers to meet others in the same position.

Contact us for more information on being a kinship carer and let us know if you would like to meet up with other kinship carers.
